

Alabama Herb Society Promoting Knowledge, Use and Enjoyment of Herbs Join Today!

About Us: The Alabama Herb Society is a volunteer organization that began in 1996. Our purpose is to promote the study, growth, and use of herbs in an enjoyable and friendly atmosphere. Programs during the monthly meetings range from historical use of herbs, their medicinal properties, how to make our dishes flavorful with the use of herbs, educational lectures on research, and how to plant and grow herbs. Some programs are hands on!
